Protecting Nature and Strengthening Communities ... Together

We envision a healthy, resilient Lake Simcoe and it's surrounding land that will enrich our lives for generations to come.

Our Mission is to raise funds for the environmental and educational initiatives of Lake Simcoe Region Conservation Authority that lessen the impact of climate change and inspire action.

In nature, rarely do things stay the same. Our watershed is no different. And like our planet, it is undergoing significant change.

We are the Lake Simcoe Conservation Foundation (LSCF), the charitable arm of Lake Simcoe Region Conservation Authority (LSRCA). We inspire people and organizations to donate in support of their vision of a **healthy lake, healthy land, healthy life...for generations to come**. The leading fundraising environmental charity in our watershed, we are certified in Imagine Canada's Standards program for excellence in non-profit management.

LSRCA is our local environmental agency dedicated to the health of this Lake Simcoe watershed we call home. They collaborate to protect and restore it with innovative research, policy, and action. They are here to help guide and influence the necessary changes to address what's ahead.

The Impact of Your Gift

Your support of the **Climate Champion Campaign** helps fund critical initiatives that ultimately **create more resilience to Climate Change**, supporting projects that protect our forests and wetland habitats and improve soil and water health. These projects increase biodiversity, protect pollinators, reduce phosphorus and much more. LSCF also helps ensure children are inspired by and appreciate nature through on-going support of LSRCA's Outdoor and Outreach Education programming. And we help ensure features like trails at local Conservation Areas and Parks are improved for nature appreciation and increased well-being.

Thanks to our generous donors, the **Connect Campaign** is raising millions of dollars to help build an incredible new Nature Centre at Scanlon Creek Conservation Area in Bradford by 2024. The Nature Centre will be the region's premiere destination for experiencing nature. It will be sustainable, inclusive and reflect a commitment to Truth and Reconciliation. It will be the anchor for outdoor education programming.

The Lake Simcoe Watershed

The Lake Simcoe watershed is a 3,400 square kilometre area of land that sweeps across 20 municipalities, from the Oak Ridges Moraine in the south to the Oro Moraine in the north, through York and Durham Regions, Simcoe County and cities of Kawartha Lakes, Barrie and Orillia. It has been inhabited by Indigenous Peoples since creation. We recognize the Williams Treaties First Nations, including the Chippewas of Georgina Island, Rama and Beausoleil and the Mississaugas of Alderville, Curve Lake, Hiawatha, the Credit and Scugog Island.
